Re: Mill Fork Tract spring and seep summary data

Mr. Darby:

This letter is being sent to you at the request of Jean Semborski from Genwal Resources, Inc. The enclosed disk contains historical spring data from the Mill Fork Tract lease area in Microsoft Excel format. You will notice that many of the dates are given by year only. We realize the importance of the time of year at which the samples were taken. That information is not currently available to us, but we are pursuing it.

Regards,

Travis Jensen  
Assistant Hydrogeologist
